There can be no assurance that a change in market conditions or other factors will not result in a change in the Fund's distribution at a future time.*

## RISKS AND DISCLOSURES

*As of December 9, 2020, Liberty Street Advisors, Inc. became the adviser to the Fund. The Fund's portfolio managers did not change. Effective April 30, 2021, the Fund changed its name from the "SharesPost 100 Fund" to "The Private Shares Fund." Effective July 7, 2021, the Fund made changes to its investment strategy. In addition to directly investing in private companies, the Fund may also invest in private investments in public equity ("PIPEs") where the issuer is a special purpose acquisition company ("SPAC"), and profit sharing agreements. The Fund's investment thesis has not changed.*

Investment in the Fund involves substantial risk. The Fund is not suitable for investors who cannot bear the risk of loss of all or part of their investment. The Fund is appropriate only for investors who can tolerate a high degree of risk and do not require a liquid investment. All investing involves risk including the possible loss of principal. Shares in the Fund are highly illiquid, and can be sold by shareholders only in the quarterly repurchase program of the Fund which allows for up to 5% of the Fund's outstanding shares at NAV to be redeemed each quarter. Due to transfer restrictions and the illiquid nature of the Fund's investments, you may not be able to sell your shares when, or in the amount that, you desire. The Fund intends to primarily invest in securities of private, late-stage, venture-backed growth companies. There are significant potential risks relating to investing in such securities. Because most of the securities in which the Fund invests are not publicly traded, the Fund's investments will be valued by Liberty Street Advisors, Inc. (the "Investment Adviser") pursuant to fair valuation procedures and methodologies adopted by the Board of Trustees, as set forth in the prospectus. As a consequence, the value of the securities, and therefore the Fund's Net Asset Value (NAV), may vary. There are significant potential risks associated with investing in venture capital and private equity-backed companies with complex capital structures. The Fund focuses its investments in a limited number of securities, which could subject it to greater risk than that of a larger, more varied portfolio. There is a greater focus in technology securities that could adversely affect the Fund's performance. The Fund's quarterly repurchase policy may require the Fund to liquidate portfolio holdings earlier than the Investment Adviser would otherwise do so and may also result in an increase in the Fund's expense ratio. Portfolio holdings of private companies that become publicly traded likely will be subject to more volatile market fluctuations than when private, and the Fund may not be able to sell shares at favorable prices. Such companies frequently impose lock-ups that would prohibit the Fund from selling shares for a period of time after an initial public offering (IPO). Market prices of public securities held by the Fund may decline substantially before the Investment Adviser is able to sell the securities. The Fund may invest in private securities utilizing special purpose vehicles ("SPV"s), private investments in public equity ("PIPE") transactions where the issuer is a special purpose acquisition company ("SPAC"), and profit sharing agreements. The Fund will bear its pro rata portion of expenses on investments in SPVs or similar investment structures and will have no direct claim against underlying portfolio companies. PIPE transactions involve price risk, market risk, expense risk, and the Fund may not be able to sell the securities due to lock-ups or restrictions. Profit sharing agreements may expose the Fund to certain risks, including that the agreements could reduce the gain the Fund otherwise would have achieved on its investment, may be difficult to value and may result in contractual disputes. Certain conflicts of interest involving the Fund and its affiliates could impact the Fund's investment returns and limit the flexibility of its investment policies. This is not a complete enumeration of the Fund's risks. Please read the Fund prospectus for other risk factors related to the Fund.

The Fund may not be suitable for all investors. We encourage you to consult with appropriate financial professionals before considering an investment in the Fund.
